" ENNENKUIN ALOITAT KATSO TARKASTI KOKOAMISOHJE
SEKÄ TARKISTA ETTÄ KAIKKI OSAT OVAT MUKANA"

This diagram shows an exploded view of a two-part assembly. The top part consists of a main plate (A) and a side rail (B) that fits into a groove on the plate. The bottom part consists of a main plate (C) and a side rail (D) that fits into a groove on the plate. Callout E points to the interface between the top plate and rail, and callout F points to the interface between the bottom plate and rail. Detail view VII (top left) shows a small rectangular component with a pin and a spring. Detail view V (bottom right) shows a cross-section of the side rail (D) fitting into the groove of the main plate (C).

A technical drawing of a mechanical assembly, likely a bracket or support structure. The main view shows a perspective of a rectangular frame with a top rail and several vertical supports. A circular callout labeled 'II' shows a detail of a curved component. A rectangular callout labeled 'I' shows a detail of a bolt or screw. A circular callout labeled 'G' shows a detail of a bolt or screw. The drawing uses solid lines for visible edges and dashed lines for hidden internal features.

This diagram illustrates the assembly of a wooden frame. It shows a perspective view of the frame with several components labeled with letters in circles:

- I**: A long wooden beam or rail, shown at the top and bottom of the frame.
- II**: A small L-shaped wooden bracket or corner piece.
- III**: A small wooden block or spacer.
- IV**: A small wooden block or spacer, shown with a screw.
- V**: A small wooden block or spacer, shown with a screw.
- H**: A small wooden block or spacer, shown with a screw.
- J**: A small wooden block or spacer, shown with a screw.

The diagram shows how these components are used to assemble the frame, with dashed lines indicating the assembly path and the final structure.

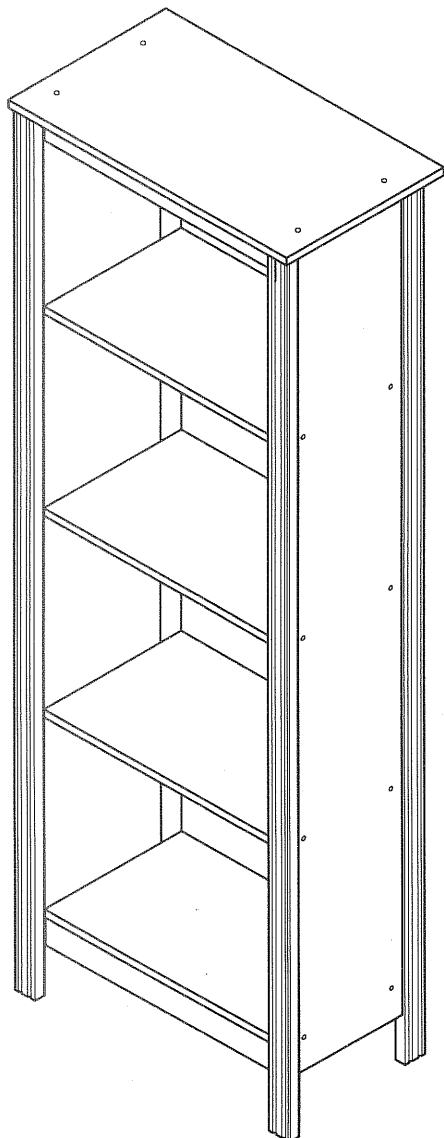

A line drawing of the assembled bookshelf from a three-quarter perspective. The right side panel is highlighted with a dashed circle, and a callout shows a foot labeled 'III' being attached to the panel.
